VOLUNTARY RECALL NOTICE

Date: October 6, 2021

To: Purchasers of ProSelect Spin-On Oil Filter 21334 (retail pack) or 21334MP (installer pack) sold by NAPA stores between August 5th, 2021 and October 6th, 2021.

Re: Recall of ProSelect Oil Filter Part 21334 and 21334MP (Specific Date Codes Only)

Dear Distributor, Dealer, or Installer,

PGI is conducting a voluntary recall of a limited population of 21334 and 21334MP manufactured and distributed by PGI under the ProSelect brand name. Our records indicate that some of these oil filters may have been sold to you for resale. While this filter fits different makes and models, issues which have been detected so far have been limited to Hyundai and Kia. A complete list of vehicles that this filter fits is attached to this notice.

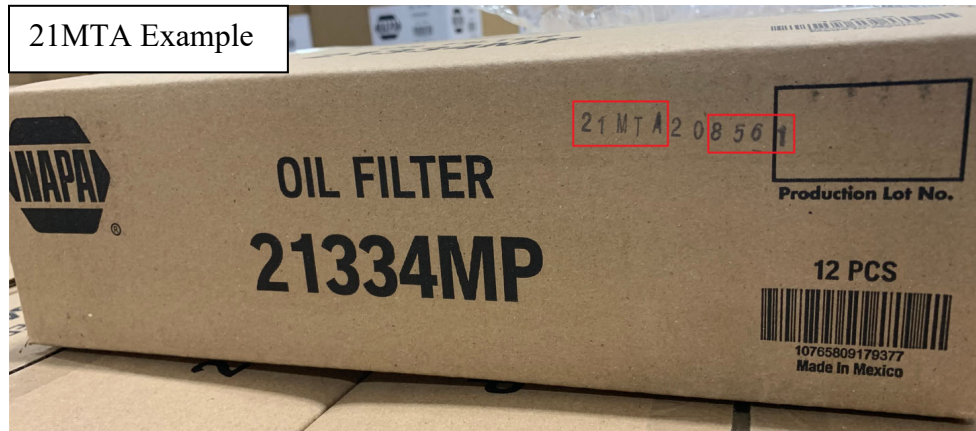

ITEMS COVERED BY THIS RECALL

This recall applies only to 21334 and 21334MP oil filters. The oil filters covered by this recall have manufacturing codes imprinted on the ends of the filters. The code will start with **number/letter combinations** of **21MNJ** or **21MTA** and end with **8561**. Parts 21334/21334MP manufactured with other code combinations are not covered by this recall. No other oil filter numbers sold by NAPA are involved in this recall. The location of the part number and code for the recalled filters can be found as shown in the photographs below.

The case for the product can also be identified by using the same code which can be found as shown in the photograph below.

WHY WE ARE TAKING THIS ACTION

PGI has discovered that certain 21334/21334MP oil filters manufactured between the dates listed above may have a larger diameter gasket than required by the vehicle. This condition may cause inadequate sealing and loss of engine oil.

WHAT SHOULD YOU DO

Please review the manufacturing code of any ProSelect 21334/21334MP oil filters you have in your possession or inventory to determine if they are covered by this recall. If you have any 21334/21334MP oil filters manufactured within the specified range in your possession or inventory, then please return these as defective to obtain replacements at no charge. Please return these as defective to your servicing NAPA store.

In addition, to help us get information about this recall to individual consumers who have purchased the recalled filters or installed them on their vehicle please transmit copies of the attached letter to owners of the subject oil filters through your distribution system. It advises owners to inspect the filter and have the vehicle returned to the service center if replacement is necessary.

If a customer has one of the covered oil filters installed, refer them to a professional installer to have an oil change service completed completely free of charge. The installer should follow the following steps to receive compensation for the repeated oil change:

1. Confirm the filter number and leak tested batch codes match the recalled filters.
2. Take a picture of both the front of the filter including the product number and a picture of the top of the filter ensuring the batch numbers are readable.

3. Email a copy of 1) the original Repair Order Invoice that included the oil change and 2) a copy of the new Repair Order with the repeated oil change and 3) the two pictures of the defective oil filter to: OilFilterClaim@sonsio.com
4. If different from the email used to send the claim in, please note the email address (or fax number) where you'd like to receive your credit card payment.
 - a. Shops will receive an email with a 1 time use credit card to cover 100% of the cost of the repeated oil change. Any additional services included on the invoice will not be eligible for coverage (i.e. air filters/tire rotations) and must be covered by the customer.
5. Any questions, concerns or for help with claims call Sonsio at: 1-844-255-8132. This number is specific to the recall.

We regret any inconvenience that this recall may cause you, but we want to assure you that any possible problems in our products are remedied promptly and that there are no future sales of the defective items.

Sincerely,

John Etheridge
Director of Product Management
